DETAILED ACTION

Claim Objections

1. Claim 1 is objected to because of the following informalities:

At line 5, of claim 1, "the airbag module and fastening to" should be replaced with -- and fastening the airbag module --.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 8, 9, and 11-17 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In regards to claims 1, 8, 9, and 11-17, "of the type" renders the claim indefinite.

Allowable Subject Matter

3. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. Claims 8, 9, and 11-17 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. The following is an examiner's statement of reasons for allowance:

The prior art does not anticipate the fastening arrangement including a shell, formed from an electrical insulating resilient material and having shoulder surrounding the stay bolt and enabling the shell to be snap-fit through the hole.

Art Unit: 3616

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
